# **Directorship & Board Advisory Certification**

For Future-Facing Board Leaders | In Collaboration  
with PwC Academy

# Why This Program?

India's boardrooms are undergoing a structural transformation. With over 1,200 independent director positions projected to open by 2024, companies are on an active lookout for board-ready professionals who combine strategic foresight, governance expertise, and ethical clarity.

As per Section 149 of the Companies Act, 2013, all listed companies in India are mandated to appoint at least one-third of their board as independent directors, ensuring greater accountability and governance transparency. This regulation has accelerated demand for directors who bring in diverse, specialized, and future-ready leadership capabilities.

Additionally, a growing number of seats are opening up as existing board members reach their 10-year maximum tenure, intensifying the competition among professionals aiming to transition into board roles.

However, executive search firms and nomination committees now expect more than seniority—structured governance training, boardroom etiquette, risk oversight skills, and stakeholder stewardship are critical differentiators.

**In this dynamic landscape, the Board Advisory Certification Program empowers professionals to:**

- Gain credible, structured exposure to modern boardroom dynamics
- Build fluency in governance, risk, compliance (GRC), and ESG
- Strengthen their board readiness with simulated board scenarios and expert mentorship
- Improve their visibility among board networks and selection panels
